

TECHNOLOGY SERVICES SERVICES

Valencia IIP: our name and our focus is Information & Infrastructure Protection. What makes us different is our holistic, integrated perspective.

Our technology services operationalize processes and solutions to support client privacy and security initiatives.

Our focus is on service management, architecture development and technology governance in order to help our clients achieve their objectives.

Our technology services consist of:

- ◆ Documenting IT & business strategies
 - Assessing existing technology deployments
- ◆ Defining future architectures and IT operation models
- ◆ Generating integration roadmaps
- ◆ Developing "shared service" strategies
 - Optimizing the definition of IT governance & organization structures
