Achieving CPCSC Compliance

Canada's defence industry needs to demonstrate effective Cybersecurity Controls to win and deliverdefense contracts. Valencia helps organizations understand CPCSC expectations, identify compliance gaps, and build a practical, evidence-based path toward certification.

OUR CPCSC COMPLIANCE SERVICES

Gap Assessment

Assess your current environment against CPCSC requirements to define scope, identify gaps, and establish your Level 1 or 2 certification baseline.

Remediation

Implement controls across identity, endpoints, networks, data protection, and monitoring.

Documentation

Develop audit-ready policies, procedures, and supporting evidence aligned with CPCSC expectations and your operational reality.

Preparation & Support

Complete self-assessments and gather evidence for certification and continual compliance.

WHO WE HELP

Ideal for organizations that:

- Need CPCSC certification to enter the Canadian defence supply chain
- Are planning to bid on defence contracts with security requirements
- Have gaps between current controls and compliance expectations
- Want a structured, efficient path to certification

Valencia believes in an empowered and safe digital world for everyone. This goal is the guiding principle of what we do.
