Cybersecurity Services

Valencia believes in an empowered and safe digital world for everyone. This goal is the guiding principle of what we do.

Since 2015, Valencia has offered practical outcomes and expertise to improve your cybersecurity posture. We are motivated to move beyond transactions, seeking long-term relationships with our clients, staff, and partners.

OUR CYBERSECURITY SERVICES

OPERATE

Incident Response	Rapid response to contain, investigate, and recover from cybersecurity incidents with minimal business impact.
Security Programs	Development of right-sized security programs, including policies, governance, and operating models.

BUILD

Solution Design	Security-led architectures that align business needs with resilient, defensible controls.
Technology Strategy	Clear, practical roadmaps aligning technology and security to business priorities.

MEASURE

Penetration Testing	Real-world attack simulations to identify exploitable vulnerabilities across systems and applications.
Cyber Maturity Assessments	Structured evaluations of cybersecurity capabilities with prioritized improvement actions.
Privacy Assessments	Risk-based reviews to identify privacy gaps and support regulatory compliance.
Technology Maturity	Independent assessments of technology environments to identify readiness and capability gaps.
Audit & Certification	Readiness and support for security and privacy audits and certifications, such as NIST and CPCSC.
Technology Choices	Vendor-agnostic guidance to select tools that fit security and operational needs.

Our team of experts can help you determine your needs. We support you with a **clear, evidence-based path forward. Reach out today.**
