Defence Industry Solutions

Valencia believes in an empowered and safe digital world for everyone. This goal is the guiding principle of what we do.

We support Canadian defence organizations with cybersecurity, compliance, and IT services, backed by the experience and credentials needed to meet government and supply chain requirements with confidence. With Valencia, you get a team with:

- Government of Canada secret security cleared facilities and staff to support sensitive defence programs.
- Cybersecurity certified experts including CISSP, CISM, CISA, CRISC, CIPP/C, Microsoft security and cloud.
- Practical security expertise designed for manufacturing and development environments.
- Veteran experience and a deep understanding of defence requirements.

OUR DEFENCE SERVICES

CPCSC Certification

Achieve compliance with Canada's Cyber Security Certification Program (CPCSC) through structured assessments, control implementation, and full audit preparation support.

Managed CPCSC

Maintain your certification with ongoing control management, compliance monitoring, and audit readiness so you are always prepared for reassessment.

Digital Strategy

Modern, secure IT architectures and digital strategies that align technology investments with business goals and evolving defence requirements.

Cybersecurity Advisory

Design and mature cybersecurity programs, policies, and governance structures aligned to regulatory and contractual requirements.
