Harness & Secure Corporate AI

Valencia believes in an empowered and safe digital world for everyone. This goal is the guiding principle of what we do.

We help organizations evaluate, govern, and implement AI solutions while managing cybersecurity, privacy, compliance, and operational risks.

Whether you're developing AI policies, implementing Microsoft Copilot, or building an organization-wide AI strategy, we help balance innovation with governance.

OUR COMPLIANCE SERVICES

AI Readiness Assessments

Evaluate existing technologies, governance structures, data quality, security controls, and organizational readiness to identify opportunities and risks associated with AI adoption.

AI Policies & Governance

Develop AI acceptable use policies, governance frameworks, risk management processes, and oversight models that support responsible and compliant AI use.

AI Security & Privacy Reviews

Assess cybersecurity, privacy, data protection, regulatory, and intellectual property risks associated with AI tools, platforms, and workflows.

AI Strategy & Adoption

Build practical roadmaps that align AI investments with business objectives while supporting secure implementation, user adoption, and long-term governance.

WHO WE HELP

Ideal for organizations that:

- Are evaluating Microsoft Copilot, ChatGPT, or other AI solutions
- Need AI policies, governance frameworks, or risk management processes
- Want to implement AI securely while protecting data, privacy, and intellectual property
- Are looking to identify practical AI use cases and build an AI adoption strategy
