Managed Cybersecurity Services

Valencia believes in an empowered and safe digital world for everyone. This goal is the guiding principle of what we do.

Our managed cyber services give organizations a dependable way to operate secure, resilient, and well-governed environments. Whether you need rapid incident response readiness or a fully outsourced cybersecurity capability, our managed offerings integrate seamlessly with your team to reduce risk, improve recovery, and provide predictable, ongoing assurance.

ACCELERATED INCIDENT RESPONSE

Slice is Valencia's accelerated incident response service, designed to help organizations **contain, recover from, and learn from security and privacy incidents**—fast. By preparing in advance and maintaining familiarity with your environment, Slice reduces response time, business disruption, and uncertainty when incidents occur.

Ideal for organizations that:

- Require rapid, confident responses to incidents
- Want to reduce response and recovery time
- Need predictable incident response support

OUTSOURCED CYBERSECURITY

Citrus is Valencia's outsourced cybersecurity program, providing organizations with **security and privacy capabilities without the overhead of a full in-house team**. By integrating Valencia's experts into your operations, Citrus delivers continuous oversight, operational support, and governance through a flexible, cost-effective managed model.

Ideal for organizations that:

- Are outgrowing their current cyber capacity
- Struggle to recruit and retain security talent
- Need consistent oversight, governance, & support

Looking for managed IT services? We can help with that too!

Whether you need accelerated incident response or fully outsourced cybersecurity, Valencia can help you **operate with confidence**. Let's discuss which managed cyber service is right for your organization.
